

Now SafTGlo can  
match the pattern of  
your carpet as well  
as the colour.

# STG Aerospace unveils the latest innovation in photoluminescent (PL) floorpath marking; a unique pattern-matching service.

SafTGlo is the world's leading photoluminescent emergency floorpath marking system and has been at the forefront of all the major innovations in PL for the aerospace sector.

STG has now extended its market-leading SafTGlo range with a unique pattern-matching offer.

SafTGlo PatternMatch is tailor-made to match the actual pattern of even the most intricate carpet design. A translucent overlay, specially printed to match the surrounding carpet's colour and design, sits over the PL strip meaning the system is completely discreet when cabin lighting is on but just as effective as other SafTGlo variants if the lights go out.

PatternMatch has been developed in response to

*A unique ultra slim profile and easy installation makes SafTGlo the leading choice in premium cabin design schemes*

## Make significant savings with SafTGlo.

- Return on investment – possible pay-back within 3 months
- Used by hundreds of airlines on thousands of aircraft to drive down cost base
- Save up to 25% versus installation costs of electrical systems
- Many SafTGlo systems have notched up over 10 years of trouble-free service
- Huge savings in through-life costs
- Maintenance free technology - no costly servicing
- SafTGlo is the low-cost alternative to electrical emergency floorpath systems.

demands from customers for whom interior design is a key feature.

Like all SafTGlo ColorMatch systems the new design is a completely sealed system that is both hard-wearing and low maintenance; making it the perfect, easy-to-fit low cost alternative to electrical floorpath marking systems.

With its inherent ability to drive down the cost of operating aircraft SafTGlo is the preferred choice for Boeing, Embraer and is flying high in over 6000 aircraft worldwide.
